

Wassup –Your Call

Ever had one of those days when everyone gets you down -
From your teacher on through to your best friend?
Let me tell you what's up ...

When you got a taste of a bitter aggravation
Everything around got the contamination
No way - can you see salvation
No help comin' from your friends or your relations
Your call - Relieve that frustration
Your call - Self-preservation
Your call, your call, your call.

(Chorus)

Wassup? We're gonna hear you when you call
Wassup? We'll help you stand up if you fall
Wassup? When the whole world is upside down
We're around, wassup? We're listening, wassup?
We're around.

You're down and it's a bad situation
Done nothing wrong but you copped the condemnation
No one listening - no appreciation
Your world - crazy disintegration
Your call - A simple conversation
Your call - Your motivation
Your call - Self-preservation
Your call, your call, your call.
